

# SNE SERIES SECURITY NETWORK ENCLOSURE

The Most Advanced Security Cabinet Available

Add-on accessories for greater capabilities

Easy ordering with single part number standard packages tailored for common security installation challenges

Enclosure is UL listed for 3,000 lbs.

Multiple depths to accommodate different floor plans and equipment needs

Active or passive thermal management packages

Choice of threaded or cage nut rail mounting methods

Doors accommodate industry standard electronic locks

Versatile cable management and routing included

Casters rated at 1,600 lbs.

## Optimized for Security

- Designed for IP, Analog, and Hybrid installations
- Includes Lever Lock™ system for efficient mounting of small devices
- Non-proprietary “Zero-U” mounting for additional capacity

## Supports both Active & Passive Ventilation

- Works in equipment rooms or data centers
- Fan tops and rear fan doors are available

## Features Enhanced Cable Management

- Innovative optional cable chases
- Unique cabinet to cabinet cable pass throughs
- Large bottom opening

Available with either threaded or cage nut style rackrail

ALL SNE SERIES RACKS ARE PRE-CONFIGURED WITH:

# HYBRID

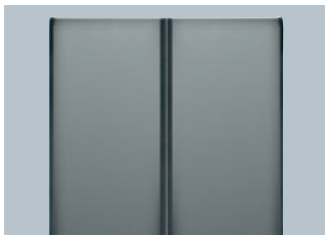

## SNE SERIES SECURITY NETWORK ENCLOSURE

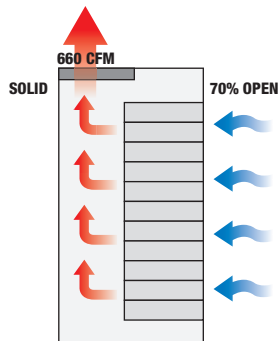

**For Hybrid Digital/Analog Systems**

The SNE Series Hybrid is configured for hybrid security systems consisting of a mix of analog and digital equipment and cabling. Accommodates small devices including encoders, power supplies and Access Control Systems on the patented Zero-U Tool-Free Lever Lock™ system.

- Fully configured Security Network Enclosure with active ventilation for equipment rooms
  - 70% open area vented front door
  - Pair of split flush mount locking side panels
  - (2) vertical 10" wide Lever Lock™ accessory mounting plate
  - (1) 6" wide vertical wire grid lace
- Available in 24", 27" & 30" widths
  - 36" and 42" overall depths
  - 24, 42, and 45 rackspace
  - 2 pair of tapped 10-32 adjustable rail
  - 4 space cage-nut adapter (pair)

Solid split door

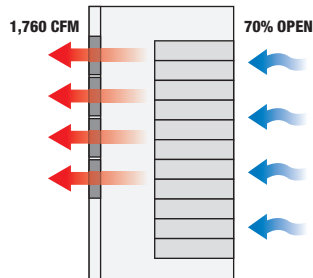

### SNE SERIES HYBRID WITH TOP ACTIVE VENTILATION

- Fan top with proportional speed thermostatic control provides 660 CFM active ventilation

# DIGITAL

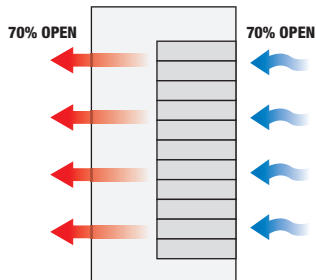

## SNE SERIES SECURITY NETWORK ENCLOSURE

Digital

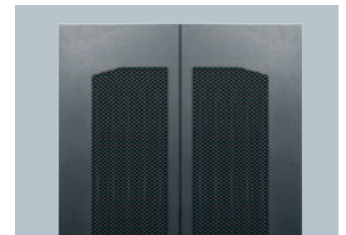

The SNE Series Digital is configured for digital (IP based) security systems consisting of high-density cabling, network equipment, and servers. Optional Tool-Free Lever Lock™ system accommodates small devices including encoders, power supplies, and access control systems.

- Fully configured Security Network Enclosure with passive ventilation for data centers
  - 70% open area vented front door
  - Pair of split flush mount locking side panels
  - 2 pair of adjustable cage-nut rackrail (including 6 mm hardware)
  - Lever Lock™ compatible (accepts all Lever Lock™ vertical 21" accessories)
- Available in 24", 27" and 30" widths

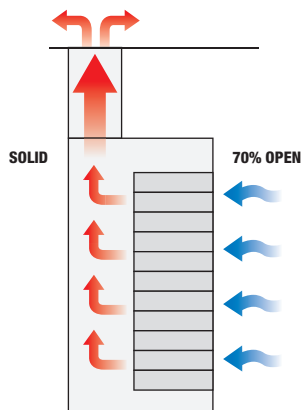

### SNE SERIES DIGITAL WITH PASSIVE COOLING (FRONT TO REAR)

- 70% open area split rear door
- Solid top with brush cable pass-through

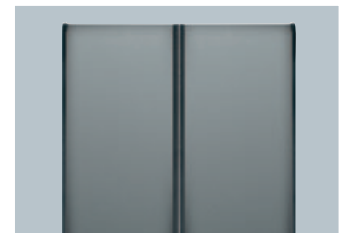

70% open area split rear door
